Members Absent: Terry Buettner, Tom Anderson, Jody Casper, Kevin Raun

Joseph Anderson spoke with the committee about some possible changes in the zoning regulations. And that the committee needed to give some guidance to Keith Carl of Hanna Keelan about what needs to be added or changed within the regulations. The key issues that the committee wanted to address at this time are:

- Adding a livestock matrix that would require a minimum score before being considered for approval.
- Having a waiver that neighboring property owner to sign that would allow a livestock producer to expand with less than the required setback
- Have some way of dealing with nuisance properties. Joseph Anderson stated that there are some counties that have adopted some regulations dealing with nuisance properties. County Attorney Melodie Bellamy stated that South Central Economic Development does some of this type of work for some cities and might be able to do this work for Kearney County. The Committee liked the idea of having a third party being able to do that work would be good and asked Joseph Anderson to investigate that further.
- Look at our current wind and solar regulations and look at adjusting the setback requirements for commercial/industrial wind and solar developments.

Chairman John Kuehn asked if there was any other business that needed to be discussed. With no other business Dawn Thompson made a motion to adjourn at 8:48 pm seconded by Patty Lundeen.
